

Bridgestone Communication Consent

In order to enable Bridgestone and its affiliates, agents, service providers, business partners, customers, successors, and/or assigns (collectively “The Companies”) to process my application, which may require from time to time that each contacts me for potential interviews, or communicates with me in any way related to my potential employment, or hiring, I agree that The Companies may contact me by telephone, text message, or email at any telephone number and/or address that I have provided to The Companies, and/or will provide to The Companies, including telephone numbers that are or may be assigned to wireless devices. Specifically, I expressly consent to allow any of The Companies to contact me on the telephone number(s) I provide, either by text message or phone call, whether the communication(s) originate(s) from a human being or through a machine such as an automatic telephone dialing system.

I understand and agree that The Companies may place such telephone calls by voice call and/or text messaging (including SMS and/or MMS text messages). I further agree that The Companies may place such telephone calls through the use of pre-recorded/ artificial voice messages and/or the use of an automatic telephone dialing device. I understand that The Companies may contact me by telephone, including by text messaging, any day of the week and at any time, and understand that I may incur charges related to such contact in accordance with my wireless telephone plan or otherwise. I understand that I do not need to sign this agreement, or otherwise agree, as a condition of purchasing any property, goods, or services.

I agree to inform The Companies if I wish to stop receiving communications from the Companies. Should I specifically wish to stop receiving text messages, I understand that I may text “STOP” in reply to any text message received from The Companies, or use any other reasonable means to withdraw my consent to receive text messages. I also understand that if I wish to stop receiving telephone calls from The Companies, that I must press “1” while on a call in order to stop receiving all future calls from The Companies.. In any event, I understand that The Companies may still contact me by other means, including through live voice calls. In exchange for consideration of potential employment with The Companies, I hereby waive any right to a legal action under the Telephone Consumer Protection Act, or any similar state or federal law, in connection with any telephone contact from The Companies.
